I've had a hard knock life. But I always have done my best. I put two children through European universities. I've endured severe marriage problems. I have family that won't speak to me and I won't speak to others.

But everyone knows what I stand for - apparently being yourself and vocal about what you believe in only is embracing if you're 'progressive'.

CLIMATE DEPOT

'Lost Summer for Greenland': 'Record late snowpack—lingering into July' – 'A big shock' – But the record cold & snow blamed on 'climate change'

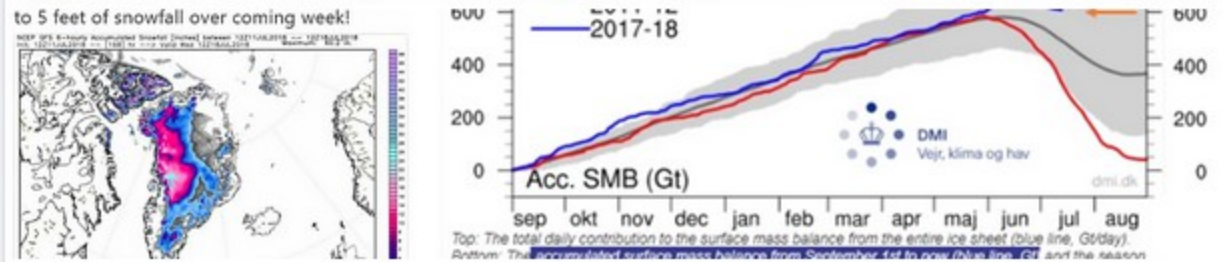

Greenland and Arctic record cold and snow are once again being blamed on "climate change," according to an article in *Scientific American*. The July 13 article declares a "Lost Summer for Greenland" as "a record late snowpack—lingering into July" harms the shorebirds breeding season. Jeroen Reneerkens, an avian ecologist at the University of Groningen who has studied Greenland's

shorebirds since 2003, expressed bewilderment at the winter conditions in summer. "The tundra was 100 percent covered in snow, and it was a very deep layer," he says, estimating an average depth of about one meter. "It was a big shock to see the place like that," he added. Sanderlings, red knots and ruddy turnstones failed to breed this year along the Arctic island's east coast due to **record snow cover**

By Daniel Ackerman on July 13, 2018

Excerpts: Snowmelt usually allows shorebirds to begin nesting on eastern Greenland's treeless tundra during the first half of June, says Jeroen Reneerkens, an avian ecologist at the University of Groningen who has studied these birds since 2003. However, when he arrived this year at Zackenberg Station on June 14 to survey sanderlings, a species of Arctic-breeding shorebird, he found they had nowhere to construct their nests. "The tundra was 100 percent covered in snow, and it was a very deep layer," he says, estimating an average depth of about one meter. "It was a big shock to see the place like that," he adds...

This is an example of another refugee con. This rubber boat contains 100 people and is propelled by a 40 hp Yamaha outboard motor. To accomplish a journey to Italy of 500 km it will have a top speed of 7 km per hour and will take 3 days and require 350 gallons of fuel weighing just under 1 ton, which clearly it does not have on board - Nor could it carry it. Further it would require food for 100 for 3 days but clearly is not carrying any but more importantly it would require over 300 litres of water which would weigh 660 pounds. Again they don't have it. This is a dreadful con. Governments know and allow it to continue. In effect, all that happens is these fit healthy African males are taken off the beach and then they await the NGO charities to come and pick them up!

"Genocidal rape" is a term used to describe the deliberate ethnocide of a people by a hostile ethnic group and in Britain the No. of girls raped by racial aliens actually eclipses the No. raped in the Rwandan genocide by a fairly wide margin

ring the Rwandan Genocide

the free encyclopedia

The Rwandan Genocide of 1994 took a gender-specific form when, to half a million women were raped, sexually mutilated, or murdered. The International Criminal Tribunal for Rwanda (ICTR) handed down the first conviction in of war during the civil conflict, and, because the intent of the mass rape was to destroy, in whole or in part, a particular ethnic group, the rape during wartime was found to be an act of genocidal rape.^{[1][2]}

were carried out by the Interahamwe militia and members of the Rwandan military, and the Rwandan President was directed at the national and local levels by political and military leaders to carry out the genocide. The genocide was a direct result of the goal, the destruction of the Tutsi ethnic group.^{[3][4]}

ONE MILLION CHILD VICTIMS OF MUSLIM RAPE GANGS IN THE U.K.?

06 Feb 2018

Source: Free English

From 1994 to 2018, at least 1.1 million children from Kosovo, Afghanistan, Iraq, Syria, and other conflict zones have been sexually abused. In the UK, the number of child victims of sexual abuse is estimated to be around 1 million. This is a staggering number of children who have been sexually abused. The number of child victims of sexual abuse is estimated to be around 1 million. This is a staggering number of children who have been sexually abused.

The reason for the over-reporting of the number of child victims has been identified as the fact that the vast majority of the reports were false. In several instances, the police refused to believe the accusations made by the girls, while the girls who had been sexually abused were not believed.

It is important to note that the number of child victims is not the same as the number of child victims who have been sexually abused. The number of child victims who have been sexually abused is estimated to be around 1 million. This is a staggering number of children who have been sexually abused.

The problem with "reactionary" is precisely that it defines itself *in opposition to*. With nothing to react against, it no longer exists. Thus, if it wins ... what then?

Furthermore, by casting ourselves as basically reactive, it symbolically hands the initiative to the left - if we react, logically, they act. If we're standing athwart the rails of history yelling "stop!", then we're against history ... no more, ultimately, than a regulator on the great liberal engine of progress, arguing not so much about the direction as about the speed ... and implicitly defined by cowardice.

Agreed that AltRight is a very ambiguous label. That of course, was its whole point.

"The western lowland gorilla passed away in her sleep Tuesday morning at the Gorilla Foundation's preserve in California's Santa Cruz mountains, the foundation said.

"Koko touched the lives of millions as an ambassador for all gorillas and an icon for interspecies communication and empathy," the foundation said on its website. "She was beloved and will be deeply missed."

"Koko was believed to have had an IQ of between 75 and 95 and could sign more than 1,000 words. The average IQ of a human is around 90 to 110. She also understood spoken English."

According to the "30 point rule" of psychometrics [as proposed by pioneering psychometrician Leta S. Hollingworth], Koko's elevated level of thought would have been all but incomprehensible to nearly half the population of Somalia (average IQ 68). Yet the nations of Europe and North America are being flooded with millions of unvetted Somalian refugees who are not (initially) kept in cages despite what appears to be the world's highest rate of violent crime.

Obviously, this raises a question: Why is Western Civilization not admitting gorillas? They too are from Africa, and probably have a group mean IQ at least equal to that of Somalia. In addition, they have peaceful and

The emasculation of men since the 80's is nothing short of breathtaking. 'We are living in the Era of the Eunuch. Hormonal Ideology 1/9 Ideology is inextricably linked to hormones. You can see the physiognomic evidence everywhere. Obese, manjawed feminist careercunts suffer a deficit of estrogen and an excess of testosterone. Their counterparts, the bugman soyim, experience the opposite. On the other side of the ideological divide, your typical nationalist male has normal-to-high levels of testosterone, while your typical trad female has an appropriate level of estrogen.

Hormonal Ideology 9/9

The dissident right, or the Alt-Right, or nationalist populism, or whatever you want to call our own thing, is proving successful for essentially the same reason. The ideological goal is White survival, or White imperium (depending), as well as a Restoration of tradition. Achieving this goal requires men with high t-levels. Therefore male adherents are encouraged to engage in activities - lifting heavy weights, martial arts, online trolling, offline mannerbunds - that raise t-levels. We do this quite self-consciously because we understand this dynamic, at least implicitly; in contrast the Left has been doing this unconsciously, accidentally (or perhaps surreptitiously). This is one of the reasons we terrify the J-Left so much: we see the mechanism, and are actively moving to master it and turn it to our own purposes.

Hormonal Ideology 7/9

Another example is anti-racist/anti-colonialist ideology. In this case, the goal is the supremacy of the non-White over the White. The decisive factor in such a struggle is the quality of the male combatants on either side. If one side can be convinced to concede the field of battle before battle is joined, the other wins by default. Thus its ideological goal benefits if the males of one side can be emasculated, while the males of the other are at least left alone, and at best encouraged to raise their t-levels. Amongst White males, there is an almost perfect overlap between feminism and anti-racism, and the continuous prostration before the Other required by anti-racism has precisely the same effect that continuous apology for the crime of being male has.

Spacey still being probed

The Canadian Press - Jul 4, 2018 / 5:14 am

Photo: The Canadian Press

British police are investigating six claims of sexual assault or assault by Academy Award-winning actor Kevin Spacey, three more than previously disclosed.

British media reported earlier this year that London's Metropolitan Police force was investigating allegations against the former "House of Cards" star.

Police in Britain don't name suspects until they are charged. Asked about Spacey, the force did not identify him by name but said Wednesday that detectives were investigating allegations of sexual assault alleged to have taken place in London's Westminster borough in 1996 and the western England city of Gloucester in 2013.

The force says three other complaints of sexual assault and one of assault by the same suspect have been made.

Spacey was artistic director of London's Old Vic theatre for 11 years until 2015.

The left doesn't care for the truth.
'It makes their followers think rather than simply regurgitate.
The girl who has become a poster child for children being separated from their parents was actually never separated from her mother at all.
The girl's father has said he didn't support the decision to smuggle his daughter into the US, and that she is much safer now than she was during her journey to the US.
Once again, the lying Media is caught red-handed.

Donald Trump on an upcoming cover of Time magazine was not separated from her mother at the U.S. border, according to a man who says he is the girl's father.

The powerful original photograph, taken at the scene of a border detention by Getty Images photographer John Moore, became one of the iconic images in the flurry of media coverage about the separation of families by the Trump administration.

Sanchez, have been detained together in the Texas border town of McAllen, where Sanchez has applied for asylum, and they were not separated after being detained near the border.

Honduran deputy foreign minister Nelly Jerez confirmed Valera's version of events.
